First National (South) at Perris Raceway was held and had a solid turn out. In just a few weeks, April 23-25, the Sierra National will be held at Oatfield which has an all new layout from the 2019 layout. Be sure to get signed up prior to April 12th and be automatically entered for a Fly Carbon Fiber Helmet.

BBMX round 1 was held at the Sandbox. The turn out was awesome. We had 386 paid practice riders and 596 entries on Sunday to race. It was one of the largest turnouts we had in a while. All the feedback we received was positive. It was a long day as the last moto got off the track after the sun went behind the mountains.

In other racing information, Bay moved there race on April 10th and 11th to Argyll. Track is about a 3 hour drive from Reno. It has a new layout. They changed the direction from the past couple years.

April meeting was held in person this month for the first time in 2021.

Would love to see more come out and help on race weekends. See you at the races.

Monthly Meeting

Our OTHG monthly meeting are held on the first Tuesday of every month at Pizza Plus located at Prater and McCarren, **hopefully**. Pizza is served at 6:30pm and the meeting starts at 7:00pm.

South National

The South National was held at Perris Raceway this year. Reno Chapter had a small turn out with 8 members making the trek to Perris California. A good time was had by most everyone. For a couple members, it was there first National event.

The main track and a portion of the vet track where combined for a long fun track.

Racing action was hot and heavy. Example of the type of racing, in the 45+ Intermediate, there was a 3 rider tie for first place going into the final moto on Sunday, winner takes all. This was typical of the action all weekend.

From the Editor,

Have you ever sat back and wondered what your life would have been like without motocross or if you did not show up to race? Would the race still happen. Yeah me neither. It goes back to that old saying, “If a tree falls in the woods and no one is there to hear it, does it make any noise?”

Looking in the past and trying to see the future of racing and seeing what events may look like can be a little overwhelming. I got to thinking about this after our first race this year and talking to another member. This race was one of the largest I have seen in recent years. What was the large surge for this race? Did last years shutdowns play a part in it? Are people just tired of being cooped up and needed to get out? First truly nice weekend, weather wise? Rumors of a new, longer track? What ever the reason, wow, what a weekend.

Everyone has there own reasons for doing things the way they do. For me, I am a bit of a perfectionist and if there is one thing out of place, my OCD kicks in and have to fix it. This is true with the way my bikes look and feel about the way I do this news letter. Some may like it, some may not. The next person may take what I have done and expand on it or may not even do a newsletter. What I am getting to is that someone did it before me. Someone will do it after me. The journey to get there may be different, but as long as you get there, who cares. I think I am starting to babel a little, so I am going to stop typing. Hope you are picking up what I am laying down?
