

News

2021 has been yet another hard year for the Reno OTHG chapter. At the beginning of the year, a single individual tried to come in and take over the lease for the Sandbox. It failed but now the owners of the land appear to be over the b.s. and are looking into selling the property. Unlike the individual who attempted to take over the lease, the club will not go down without a fight. The club is looking into over options for land to hold races. On top of that, the City of Fernley is working with the clubs as they want us there in Fernley. There may be a little down time, but we will be holding races. More to come in the coming weeks.

Track Walk?

Here is a great debate:
When you go to a new track, do you pre-walk the track before you ride it or not? Had a little debate after a meeting and there is a perspective I never thought about. What are your thoughts? I would like to hear your thoughts. Look for this in next months newsletter.

From the Editor,

I know I have discussed this in the past, but I wanted to bring it up again with a new perspective. Riding a dirt bike is an addiction. I am beginning to think it may be worse than a drug addiction (at least for me). Want proof? Well, here is what I am thinking:

You look so forward to riding or a race, you spend a great day either riding the trail or a track. This is your high. You have so much fun that you really do not want to stop but the body may have other ideas. Then once you load up and are on your way home, or it could be in the days to come, for me, it is typically the drive home, I start to get depressed. During the ride, the endorphins are at a high and when you stop, you are coming down that high. The only fix that will cure that depression is to go for another ride.

Is there a support group for this? Are there meetings? Should we just meet at the track or the trail head?

So, what brought this on? I had another bad get off, took a handlebar to the gut that lacerated an artery (causing internal bleeding and losing ½ liter of blood) and tore abdominal muscles that required surgery. I was pretty upbeat in the hospital for the first day and day 2 was not good. I had a lot of time to think and ponder, what is next? Well, I will let you know once I figure it out. For now, it is time to heal and take it easy. Although that itch is coming back to line up and race. We will see you soon.

Aaron Bissell 124R

Race Dates

2021 BBMX Schedule

Rd.	Date	Club	Location
1	3/27-28	OTHG	Fernley
